

ENERGY PERFORMANCE CONTRACTING

We help organisations implement large-scale savings to cut costs, reduce carbon and improve services.

The Essentia EPC framework:

There are nine suppliers on the framework, one of which is chosen as the Energy Saving Company

- Ameresco
- Breathe Energy
- Centrica Business Solutions
- EDF Energy Services
- Engie
- Imtech
- Veolia
- Vital Energi
- Ylem EPC

The Energy Saving Company will:

- Assess the current energy situation and make recommendations for change
- Present the best technologies for the project
- Guarantee the energy and cost savings over the lifetime of the contract
- Guarantee a reduction of CO₂ emissions
- Offer to fund the project or select from a variety of funding options, including self-funding, 0% and low cost finance.

AT A GLANCE

- Fully compliant, flexible process
- Transparent savings
- 15% to 25% energy and carbon savings
- Collaborative approach

“Our Energy Performance Contract has delivered upon its promises. The Trust is enjoying cost savings that meet the guarantee and benefitting from solar, biomass boilers, LED lighting and a new engine that produces energy efficiently on site.”

Karen Sandwell - Northern Devon Healthcare NHS Trust
